5.	Coaches Report	<p>Kami/Courtney Another busy month come and gone! StarSkaters are improving daily and it's been really exciting to see them accomplish new skills and improve on existing ones. We had our dance partner, Josh Brauner, come out once already to work on dances for this year. Unfortunately, half the skaters were sick that day, but we're planning on having him back Dec 7. We're also gearing up for our first mini assessment day (Star 5 or under) in the next few weeks. Lastly, we've been lucky enough to be surrounded and supported by various other Clubs and Coaches. This past week we invited Barb Westhaver from OSC to join us for a morning session to go over Axel progressions (while also acting as a mentor/professional development for Kami). Last month we had the Calgary Region StarSkate Invitational where 3 skaters in our club competed for the first time this season! We didn't have super high expectations going in as everyone had been sick and lost at least a week of practice right before the competition, but everyone skated clean and we all gained some important feedback. This will carry us forward as we start to gear up for the next competition in Red Deer at the end of January. From the sounds of it, FSC will be well represented with potentially 5 skaters competing in various events all the way from Star 2 up to Adult!</p> <p>Courtney - Can't believe we're almost done our Fall season and into December already. I have seen so much improvement in our Prelim Prep skaters. They have worked so hard and I'm very proud of all of them. This past week both Natalie and I have started doing assessments for Pre-can and Canskate. All skaters are doing great! Looking forward to Winter session with 9</p>	

		new Canskate skaters and possibly 2 moving up into Prelim- Prep. Unfortunately I did not notice any daytime Pre-can registration for winter session. Can't wait for Santa fun Skate coming soon!!
